
Agentic LLM bibliography
212 entries in 12 categories
Foundations & adaptation
62 references
Reasoning, planning & memory
35 references
Grounding & interaction
27 references
Assurance & deployment
88 references
1. Surveys & foundations
14 references
2. Post-training & PEFT
8 references
3. RL, reward & alignment
19 references
5. Foundation & reasoning models
21 references
4. Test-time scaling & reasoning
14 references
7. Architectures, planning & memory
21 references
6. Tool use & retrieval
10 references
8. Multi-agent systems
17 references
9. Safety & security
11 references
10. Evaluation & benchmarks
40 references
11. Applications
11 references
12. Infrastructure & classics
26 references
