
Identification (n = 1,183)
Records retrieved from databases and preprint servers
Deduplication
Unique records after merging versions
n = 792
Duplicates removed
n = 391
Title/abstract screening
Retained after IC1–IC5 and EC1–EC5
n = 361
Excluded at screening
Off-topic or non-LLM records
n = 431
Net reduction before eligibility
n = 111
Full-text eligibility and snowballing
Backward and forward citation searches
n = 250
Excluded at eligibility
No full text, superseded, or no artefact
n = 38
Survey references included
n = 212
Original reference set
212 survey references + 3 review-methodology references
n = 215 entries across 12 categories
